Sunny, Warm

FALL IS ON THE WAY: Fat, dark strato-cumulus clouds sweep low above the Twin Cities airport, carrying the message that Fall is close at hand. These harbingers of Fall have dressed the sky over

southwestern Michigan several times in the past week, and enticed two photographers to capture them on film. Aerial photographer Adolph Hann of Hartford took the picture above at Ross field as

he waited for take-off on a photo flight. The flag is stiff in a breeze from the north that brings in colder air. Officially, the start of Fall is 10 days away, Sept. 23.

## HARD LINE COOLS U-M MILITANTS

But They Threaten To Return

Another Showdown Monday

ANN ARBOR (AP) — After University of Michigan President Robben Fleming threatened anti-war protesters on his campus with legal action, militants called off Friday's planned disruption of classes on military science.

But at a rally attended by about 200 persons on the campus Friday night, students vowed to storm Reserve Officer Training Corps (ROTC) classrooms again Monday afternoon. CLASSES HALTED

The protesters began their drive to push the ROTC program off campus Thursday when groups of 30-50 students stopped three military science classes.

Nearly three hundred students gathered Friday noon in the center of the campus to hear future plans discussed. Student spokesmen said the demonstration was called off Friday to avoid jeopardizing those students who protested Thursday thinking they would not receive court punishment.

Barry Bluestone, 24, an economics graduate student, said, "We've been trying to figure out where to go. We can't let the university's repression stop us."

Bluestone said his group would disrupt classes at 1 p.m. Monday "despite repercussions". However, he pledged to enter the ROTC building non-violently "to shut that building down."

Asked if the group's plan of "rational and reasonable disruption" might have to be replaced by a show of force in the form of a sit-in, Bluestone replied: "That could be, I'm ready to get arrested, if that's what it takes."

FIVE-MINUTE WARNING

A university statement issued to teachers Friday instructed them to warn classroom intruders to leave within five minutes or face prosecution. The statement said disruption of a public

## BH Soldier Is Killed In Action

Allan W. Persicke  
20 Years Old

Army Specialist Four Allan W. Persicke, 20, a 1967 graduate of Benton Harbor high school, has been killed in action in Vietnam.

The son of Mrs. Elmer Sando, 1781 East Ogden avenue, Fairplain, and Wayne Persicke, Coloma, Persicke was killed Sept. 7 when his base camp was under enemy attack.

Mr. and Mrs. Sando were notified of the death by telegram Friday. The body is to be flown here for burial within the next 10 days.

According to the family, Persicke was assigned to headquarters company of the First Infantry Division at a base camp near Lai-Khe, about 30 miles north of Saigon. He arrived in the southeast Asia country in November after joining the service in June, 1968.

After graduation from high school, he had been employed as a draftsman at Clark Equipment company.

Surviving, in addition to his parents, are a sister, Mrs. Diane Morris, Waterliet, and two step-brothers, Andrew and Peter. Funeral arrangements are incomplete.

## Sanctuary Shattered By MP's

AWOL Military Men Arrested Inside Church

HONOLULU (AP) — A pre-dawn raid by military police Friday on three churches resulted in the arrest of 12 AWOL servicemen who had been seeking symbolic sanctuary.

But another 13 AWOL GIs who were thought to be at the churches eluded arrest. A spokesman for the dissident GIs said late Friday that several of the 13 had left the churches and made their way to the U.S. mainland during the past week. VISITED INDIANA

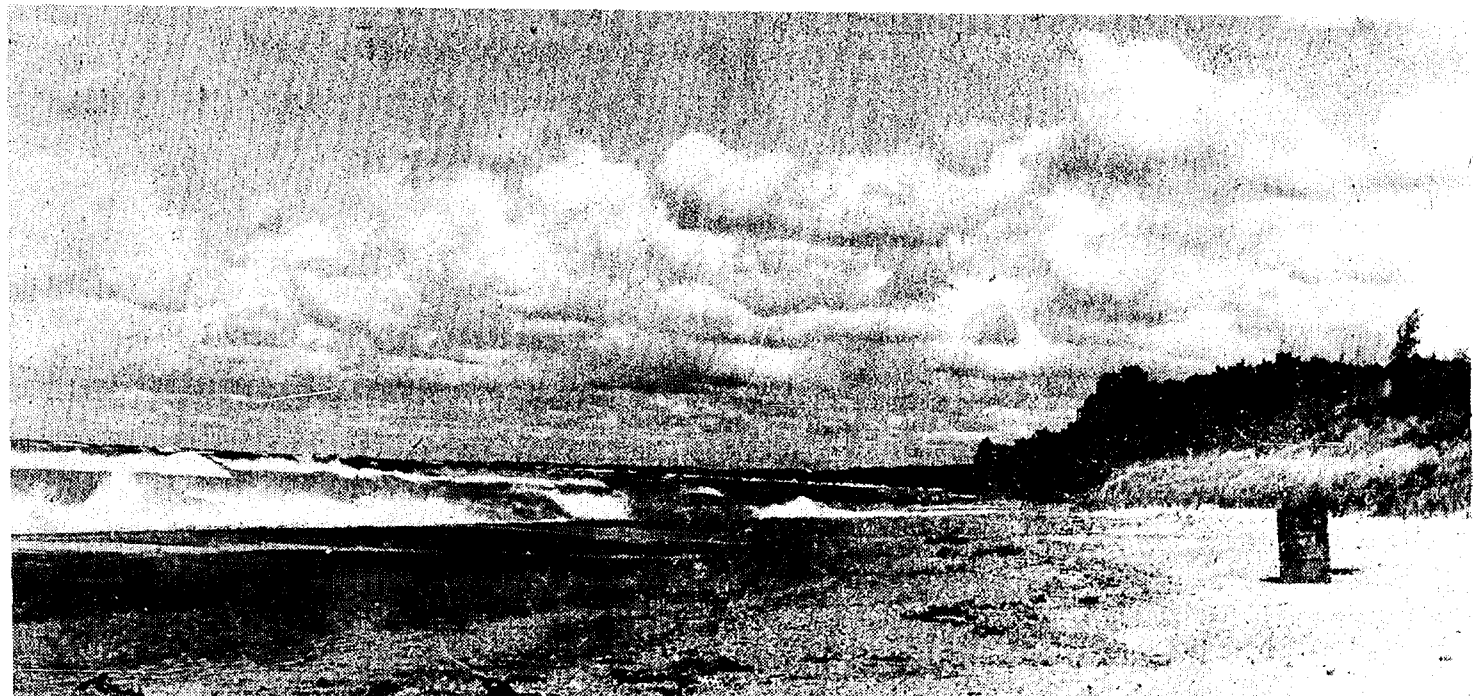

Two of the servicemen who had been in sanctuary—Airman Louis D. Parris, 21, Mountain View, Calif., and Marine Cpl. Louis F. Jones Jr., Charleston, S.C.—are now at some undisclosed location in Canada after being in South Bend, Ind., Sept. 2, at the National Episcopal Church Convention, the spokesman said.

Three of those still at large were interviewed by television station KHII-TV Friday but kept their backs to the camera. They said they left the sanctuary, begun early in August, when they "felt time was getting short." Their identities and present location were not disclosed.

Military authorities say if any more servicemen take sanctuary anywhere here, MPs will take them into custody. BACK TO UNITS

The Army said the 12 men arrested—six sailors, five soldiers and one Marine—would be turned over to their respective services.

A spokesman for the men in (See back page, sec. 1, col. 8)

DESERTED BEACH: The same foreboding clouds marched across a deserted beach at New Buffalo when Photographer Don Wehner captured this portrait of impending Fall. Whitecaps froth on waves pounding the shore. The echo of children's laughter

and blaring radios and a distant scent of suntan lotion have vanished as colder air moves down over Michigan. (Don Wehner photo)

## Nixon Calls Shots For B52's

By GEORGE ESPER

SAIGON (AP) — Bombing raids over South Vietnam are back to normal today, but Washington is directing them, military spokesmen said.

The B52s resumed their attacks after a 36-hour halt ordered by President Nixon to test the intentions of the Communist Command following the three-day cease fire for the funeral of North Vietnam President Ho Chi Minh.

Two waves of bombers dumped 300 tons of explosives 27 miles northeast of Saigon, an-

other mission struck base camps along the Cambodian border 98 miles northeast of the capital, and two missions hit the central coast near Da Nang.

Spokesmen declined to speculate whether the B52s would continue to maintain their average of about 50 sorties—one flight by one bomber—a day over South Vietnam.

One spokesman said, "It looks like operations are back to normal for the time being. I have no idea what is going on in Washington. The B52s are being controlled out of there. We'll just continue on a day-to-day basis."

The decision to resume the

raids came at a time when communiques indicated that fighting appeared to have tapered off across South Vietnam.

U.S. headquarters reported eight Americans injured in 24 rocket and mortar attacks overnight.

The U.S. Command also reported two terrorist attacks in Saigon, two shelling incidents in the demilitarized zone Friday and one fight 28 miles northwest of Saigon in which U.S. helicopters killed eight enemy. Since the cease-fire ended

Thursday, U.S. troops reported killing 144 North Vietnamese and Viet Cong troops in six battles north of Saigon and near the Cambodian border.

## Whirlpool Called Prime Example Of How Firm Can Aid Consumer

The consumer service program operated by Whirlpool Corp. to assist Whirlpool appliance owners with problems is the subject of a feature report in the Sept. 6 issue of Business Week.

The national magazine describes some of the approaches the Whirlpool program uses to keep appliance owners happy, and says the program appears "both practical and commonsensical."

It also quotes Stephen Upton, Whirlpool vice president in charge of the consumer service division,

as saying this interest in the consumer has been one of the main reasons for an increase in Whirlpool appliance sales in the last three years that has tripled the rate of gain for the industry as a whole.

A picture of Upton accompanies the article.

The Business Week writer indicated that his attention was directed to the Whirlpool program by a reporter's question to Congressmen, committee staff people, public relations people and others as to what businesses were

"really doing something" to aid consumers.

"The response more often than not was, 'Why don't you go see the Whirlpool people; they come to mind first.'"

And the article went on to add:

"In the present atmosphere of Washington, this adds up to an accolade that should entitle Elisha Gray, II, Whirlpool Corp's chairman, to a medal the size of a dinner plate."

Some of the Whirlpool Consumer service activities

cited in the article are:

• The 24-hour-a-day toll free phone service that allows consumers anywhere in the country to telephone a gripe, request for service or other problem direct to the manufacturer.

• A letter in housewife's language in place of warranty certificates.

• A national ad that presented a blank letter pre-addressed to Vice President Upton for customers "with a gripe" to let the manufacturer know.

• Paying for in-warranty service calls.

## Twin Cities' Summer Tax Deadline Monday

Monday is the last day to pay summer taxes in Benton Harbor and St. Joseph without penalty.

After Sept. 15 Benton Harbor imposes a one per cent penalty through Sept. 30, two per cent in October, three per cent November and four per cent December.

St. Joseph adds a four per cent penalty after Sept. 15.

Summer taxes provide revenue for city operations. Winter tax bills that go out Dec. 1 are for schools and county government.

Undramatic Approach

To A Difficult Problem

As the Nixon Administration rolled into the second half of its first year, the mechanics of controlling inflation as well as the philosophy of the leadership, took clearer form. In a Fortune article, entitled "The NEW New Economics in Washington," John Davenport discusses in considerable depth the goals and methods of Washington's new management.

In Davenport's view, the Nixon Administration, "... believes that the job of government is not the presumptuous one of dominating the economy but rather that of establishing a dependable framework in which competitive business can operate." In other words, "... the men now responsible for economic policy tend to be more confident than were their predecessors of the inherent strength of the U.S. economy and in the self adjusting powers of the market system if given proper fiscal and monetary conditions."

Nixon's economic advisers are not strangers to the era of new economics that in retrospect resemble an engine running without a governor. It appears now that the goal of the Administration is to contain inflation by hitting a balance between economic theory and bread and butter reality. Arthur Burns, former Chairman of the

Council of Economic Advisers under Dwight Eisenhower, and currently counselor to President Nixon, is reported by Davenport to believe that "... if the effort to minimize both inflation and unemployment is to succeed, it would seem necessary to draw on the wisdom of the old economics, which emphasized the importance of maintaining flexible and open markets for labor no less than for goods and capital."

Some might assume that the new Washington leadership is characterized mainly by negative restraint and a lack of imagination. As Davenport makes eminently clear, such an assumption is grossly in error. Administration leaders, among them presidential assistant Daniel P. Moynihan, are working for a radical overhaul of the nation's relief system. Their goal is to build incentives into relief, extend aid to unemployed fathers and enlarge the present food stamp program. As one Administration economist points out, if this can be done, "... we may be on our way toward the guaranteed annual wage or the negative income tax, without ever using those fine phrases."

Perhaps the overriding impression that readers of Davenport's piece will gain is one of an Administration that is approaching inflation and the social and economic problems of the nation with a long-needed sense of maturity. Cliches and slogans appear to have given way to intelligent debate in the inner councils of government. There appears to be a pragmatic willingness to seek a blend of practical necessity, ideological belief and social consciousness. Obviously, the first practical necessity beyond an honorable conclusion to the war in Viet Nam is the controlling of inflation. Davenport's analysis indicates that nothing will be permitted to stand in the way of that goal, although even in this area extreme measures are shunned.

What Davenport calls the Nixon economics is described by Paul McCracken, chairman of the Council of Economic Advisers. The chairman has stated he "... is all for squeezing the evil of inflation out of the economy. Yet he is also for keeping fiscal, and even more monetary, policy 'within the limits of the ball park,' so that when restraint has done its work, we can resume the ball game."

Altogether, Davenport's account of the Administration's economic policy and its moves to bring inflation within tolerable limits will strike many as an encouraging picture of a nation coming of age politically and economically. The impression emerges of a nation in which citizens accept the fact that nothing in life is free, and a nation in which officeholders recognize that the resources of taxpayers and government are limited.

Phasing Out Money

When fiction writers of some years ago wrote of a modern society in which money no longer had importance, they were ridiculed as having exceeded even their own fertile imaginations. That day is rapidly approaching.

The transition from a cash society to one in which most major and many minor transactions are made by various credit devices had been a gradual one, but the trend continues, apparently irrevocably.

Many persons today notice one of the latest facets of change, the disappearance of the half dollar, but few lament its passing.

In a few years that coin will have joined the silver dollar as a dim memory. Probably the only reason other coins are still relatively popular is their utilitarian use in vending machines and as payment for sales and other nuisance taxes.

The consumer today who pays cash for major items is looked upon in some circles with a degree of suspicion. Credit cards, check books and charge accounts have become the mediums of barter.

Alloyed coins which lack intrinsic value are hastening the process.

How far the cashless society will progress in the future is debatable, but it seems highly unlikely the consumer can be retrained into paying for many of his purchases at the time he takes possession.

Grizzlies A Problem

As another summer season comes to a close, the National Park Service is involved in a minor controversy for which there is no easy answer. Grizzly bears and humans do not get along well together inhabiting the same terrain.

Almost from the time parks like Yellowstone and Glacier were opened to the public, black bears have been favorites of vacationists. The bears undoubtedly

ly are among the most photographed creatures in the world. Spoiled by years of handouts from sympathetic but often unthinking humans, the begging bears of Yellowstone present an appealing picture of innocence.

That is an illusion, as park personnel continually tell the visitors. The bears have attacked people on occasion.

Then came the camping craze. With hundreds of campers scattered through the woods in many parks, the danger of attack by bears increased greatly. Two girl campers killed by grizzlies in Glacier National Park two years ago sparked a campaign to do something about this species.

A Maryland professor of biological sciences who was present when the two girls were killed is leading a fight to remove the grizzly from national parks, particularly where camping and hiking are permitted. Conservationists are opposed, pointing out the grizzly is having difficulty in surviving without being forced from his few remaining habitats.

Co-existence between man and the grizzly is not possible. One may have to give ground.

**WILLIAM RITT**

**You're Telling Me!**

An American explorer, Gene Savoy, has announced he will start early in 1970 on an expedition to South America seeking to find the lost civilization of the fabled El Dorado (the Golden Man). The adventure sounds like it may have rich possibilities.

El Dorado's tribe was supposed to be so enormously wealthy that at annual festivals the head man covered his entire body with gold dust. He certainly must have been a shining example.

On hearing about Gene Savoy's proposed expedition, Grandpappy Jenkins ups and says he wishes he could join it. Maybe Gramps thinks he has the qualifications because he's now a Golden Ager, too.

**MOVE FROM FARM**

**—29 Years Ago—**

Allmendinger's dredge is at work near the bayou bridge raising a scow that sank there nearly 30 years ago.

**THE FAMILY LAWYER**

**Wife On A Rampage**

While Fred was away on a business trip, his short-tempered wife, suddenly recalling some old grievance, dashed to the closet and ripped his clothing to shreds.

Upon returning home and discovering the damage, Fred decided (among other things) that he had a valid claim for insurance. When the insurance company disagreed, Fred filed suit.

"My policy is supposed to cover vandalism," he argued in court. "My wife surely did vandalize my clothing."

**ART DESTRUCTION**

Fred collected. The court said that, even though this was a rather unusual type of loss, it still fitted under the heading of vandalism.

Originally, the word "vandalism" applied only to the destruction of works of art, because that was supposedly the trademark of the marauding Vandal tribes of the fifth century. Now, however, vandalism includes the destruction of almost any kind of property.

Furthermore, there may be vandalism even if there is "nothing personal" about the destructive acts — so long as there is disrespect for the property itself.

Thus, the owner of a damaged building was able to collect vandalism insurance, even though the youngsters who did the damage did not know him. The court said their prank — leaving some faucets on overnight — was the kind of senseless mischief that vandalism insurance was meant to pay for.

**ALCOHOL, WATER DON'T MIX**

Yet, there still must be that element of intentional wrongdoing — something more than mere accidental damage.

In another case, a warehouse owner put in a claim under his vandalism insurance for damage done to one of his trucks. He pointed out that the driver had lost control of the truck and struck a fire hydrant, while under the influence of alcohol.

But in a court hearing, his claim was turned down, simply because the driver had no intention of inflicting damage on the truck.

"In the absence of an actual purpose to do injury (to property)," said the court, "the conduct could not amount to vandalism."

**THE ANSWER QUICK!**

1. Who was the orator of the day at the dedication of the National Soldier's Cemetery at Gettysburg?

2. Who was the last Confederate commander to surrender to the victorious Union?

3. What did the Confederates call the "Battle of Stone's River"?

4. Maj. Gen. George H. Thomas was popularly known by what nickname?

5. Who was the chief of the Secret Service of the Army of the Potomac?

**BORN TODAY**

"Blackjack" was his nickname and he occupies a special place in the history of the "war to end all wars."

He was placed in command of the American Forces in 1917 and, when the great offensive of July, 1918, began, the forces he led opened the way for the collapse of the Germans.

American General of the Armies John J. Pershing served as Army chief of staff from 1921 until his retirement in 1924.

In 1931 he published "My Experiences in the World War" (two volumes, a work for which he received a Pulitzer Prize in history).

Pershing was born near LaCade, Mo., in 1859 and his early boyhood coincided with the years of the Civil War.

DR. COLEMAN

.. And Speaking

Of Your Health

The prime purpose of a physician-surgeon is to save a life. It matters little if that is attained in the hospital, the office or in any other part of the community.

Dr. J. Treacy O-Hamlin feels, as all physicians do, that our efforts are wasted when we learn of the unnecessary deaths that follow automobile accidents.

Dr. O-Hamlin of Waynesboro, Virginia, has devised a simple but meaningful way to reduce rear-end collisions of automobiles. His new idea is sufficiently important to have called for great enthusiasm by Dr. Coleman Godwin and the State Highway Commission.

The new safety device will consist of three lights. The first is green and indicates that the driver is depressing the accelerator. The second an amber color shows that his foot has been taken off the accelerator. The third is a red signal showing that the brake has been applied and that the car is slowing down.

Dr. O-Hamlin feels that this three-light system will markedly reduce the frequency of accidents and the severity of the injuries that follow rear-end crashes.

To Dr. O-Hamlin I offer thanks for his devotion to the patients he cures of diseases and for preventing sacrifices at the altar of death-dealing, speeding automobiles.

When arteries are closed or narrow by arteriosclerosis the organ becomes deprived of its normal blood supply. Most of the medical efforts have been devoted to the prevention of the deposits within the arteries. Concentration on diet and the use of drugs have had little effect once the process has progressed to a moderate or severe degree.

Attempts to reopen blood vessels by medicine and surgery have been successful in relatively few instances.

Now a drug, pyridinolcarbamate, seems to have notable success in reopening portions of the blood vessels that were narrowed to a dangerous degree. These experimental studies were reported from various countries of the world at a recent international meeting. Dr. Leon di Soldati, of the Aldera Hospital in Buenos Aires, is one of the research doctors who has been giving the drug, PDC, and has noted improvement in a high percentage of cases.

Dr. Kanya of the Iwate University in Japan has been enthusiastic about the value of PDC in specially chosen cases that involve narrowing of the arteries to the brain, to the limbs and even to the heart.

Other doctors in Sweden, Italy and Peru have had similar good experiences. The follow-up studies after ten to twelve months have shown that this remarkable drug in some cases really does achieve its purpose; mainly to reopen to some degree arteries that are closed by disease.

**SPEAKING OF YOUR HEALTH:** Use nose drops sparingly; dependence on them comes quickly.

These columns are designed to relieve your fears about health through a better understanding of your mind and body. All the hopeful new advances in medicine reported here are known to doctors everywhere.

Your individual medical problems should be handled by your own doctor. He knows you best.

Opening lead — nine of spades.

Let's say you have the East hand and partner leads the nine of spades against South's contract of four hearts. Declarer plays the queen from dummy and you win with the ace. What would you do next?

It is obvious that you cannot beat the contract on high cards alone. Dummy's 13 points and your 10, added to those indicated by South's opening bid, do not leave much for your partner to have. He may have the ace of diamonds or the king of clubs, but he cannot be expected to have both. You

therefore cannot reasonably hope to stop four hearts unless partner's lead is a singleton.

Once you've come this far and realize that a spade return offers the only chance to beat the contract, you must decide on which spade to lead back. Perhaps the 10-3-2 all look alike but it is quite important to return the deuce so that after West ruffs he will know that you want him to lead back a club.

This is in line with the ruffing convention according to which the lead of a low card, which partner ruffs, calls for the return of the low suit (in the present case, clubs). Had you held the A-Q of diamonds instead of the A-Q of clubs, your return at trick two would indicate interest in the high suit (diamonds).

Without the use of the ruffing convention, West would have no way of knowing whether to lead a diamond or a club at trick three. But with it, guesswork is avoided and West automatically returns a club.

You win this with the ace and of course lead another spade for West to ruff. West then cashes the king of clubs and your side finally runs out of steam, but this is not really a hardship, since, as a result of good partnership cooperation, you defeated the contract two tricks.

BENNET CERF

Try And Stop Me

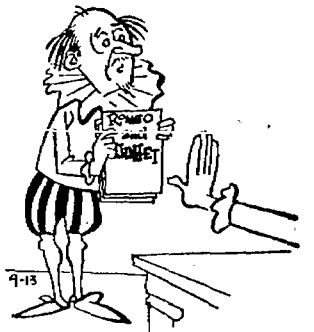

There probably is not a word of truth in the story that one of Shakespeare's most famous plays was turned down flat by the tight-fisted manager of the Globe Theatre. "Come now, Will," this manager is supposed to have said. "Do you really think sophisticated Londoners will fork over two pounds to see a couple of half-baked Italian kids moon over one another?"

An Iowa hunter scored a notable victory over a zealous game warden last season. He had just bagged a great big buck deer and was wondering how to drag it single-handed out of the brush when said game warden popped up to demand a look at his deer license. "Golly, I didn't realize you had to have a license for shooting deer," wailed the hunter. "You're under arrest," announced the warden, "and we'll just get this deer to the courthouse with you as evidence." He helped the hunter drag the deer clear out to the road, and stood red-faced and puffing from his exertions when the hunter exclaimed, "Hey, I just remembered: I do have a deer license after all."

The warden, after delivering a few appropriate remarks, disappeared into the gloaming.

At a teen-age hoe-down: "I'm looking for a new boy friend. My old one's heart is as big as Lake Erie — but it's just as polluted."

The Erie Canal was completed in 1825.

**Factographs**

The Detroit river is one of the world's busiest waterways.

## SECOND FIRM TO LOCATE IN PIPESTONE PARK

**SIGNING AGREEMENT:** Robert Starks, (left, standing) president of the Twin Cities Area Chamber of Commerce, and Frank C. Pooch, secretary of the Ferguson Welding Supply Co., watch as officials of the Twin Cities Area Development corporation and Ardale W. Ferguson, president of Ferguson Welding Supply Co., sign an agreement for the second sale in the Pipestone Industrial District. Left to right, seated, Roger Curry, executive vice president of the chamber; Ferguson; and Thomas H. Dewhurst, president of the Twin Cities Area Development corporation.

### Three-Acre Site Bought By Company

New Building To Be Completed By Next Spring

A second milestone for the Pipestone Industrial District took place today as Ferguson Welding Supply Co. announced plans to purchase three acres in the 522-acre district, located in Benton township between I-94 and the proposed I-196 extension.

Indiana & Michigan Electric company bought the first 39-acre site in April as the location for a service center. The Ferguson site is south of I & M's property across Meadowbrook Road.

Ardale W. Ferguson, president and treasurer of the company said plans call for a building to accommodate the operations of Ferguson Welding Supply Co. "The estimated construction cost is somewhere over \$100,000," Ferguson said. The building has been designed by Pearson Engineering company and will be built by Pearson Construction Co., Inc. The pre-engineered, masonry wainscoting structure is 70 by 120 feet. Completion date is expected early next spring, with anticipated occupancy by April 1.

Ferguson Welding Supply company sells industrial gases and welding systems in southwestern Michigan and employs 15 people. It was established by Ferguson in 1950, at 275 Ninth street, Benton Harbor.

"The improved design of the proposed building will result in our being able to give better service," Ferguson said. "A 50,000 gallon liquid oxygen storage vessel will be installed on the premises and oxygen cylinders will be serviced at this facility. This will obviate the need for frequent truck loads of filled cylinders being shipped in from East Chicago," he added.

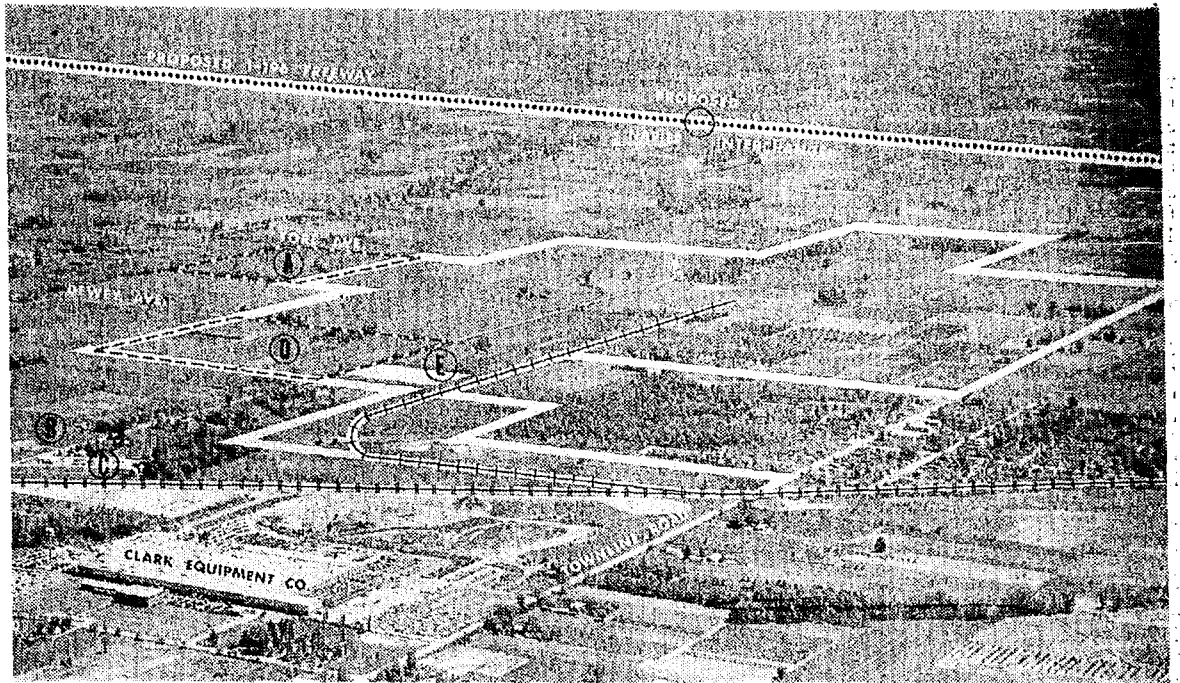

**INTEREST IN AREA**  
In commenting about the purchase Ferguson said, "We consider this purchase evidence of our interest in this community and enthusiasm for its future. We are pleased to join with I & M as the second purchaser of a site."

"We are told by development officials that our building will be the first to open its doors in the district. Among the reasons for our selecting this site is its accessibility to freeway I-94 and the nearby proposed new US-31 freeway. Sewer, water and power facilities were additional factors in our decision," he said.

Roger Curry, executive vice president of the chamber of commerce and secretary of the Twin Cities Area Development corporation, oversaw the industrial district, said: "It is encouraging to have a second sale so soon following the first by I & M. I am especially pleased that a local firm located in the district. We know we have many assets in the district that business and industry are looking for. We hope it won't be too long before other companies join the two who have purchased land and plan construction, as this will be an added incentive for others to follow and locate in the district."

"This sale was made a reality by the fine work of Mrs. Mary Lou Ross of Totzke Real Estate, and it's a pleasure to have this type of support from local Realtors in promoting and selling our community industrial district," Curry added.

Thomas Dewhurst, president of the Twin Cities Area Development corporation, commented: "We are pleased to see Ferguson Welding Supply company take advantage of the facilities offered by the Twin Cities Area Development corporation, by being among the first to acquire land in this united effort to create jobs and help the area grow."

**SECOND SALE:** Area "E" is three-acre parcel in Pipestone Industrial District purchased today by Ferguson Welding Supply Co. as location for new plant. "D" is 39 acres bought last April by Indiana & Michigan Electric Co. Just outside the border

of the district are: "A"—site of proposed new headquarters of Berrien county road commission; "B"—Lape Steel Stores, Inc., and "C"—B. A. Peters & Sons trucking firm.

## Two Early-Bird Firms Top 1969 UCF Goals

★ ★ ★ Dance To Open Drive ★ ★ ★

While United Community Fund leaders await tonight's UCF kickoff dinner-dance, they are already dancing over the results of campaigns at two companies that have completed their UCF efforts in advance of the regular drive.

Ned Gates Chevrolet, Inc., and Michigan Fruit Cannery, Inc., the first two companies to report their UCF results, both have recorded remarkable increases over their 1968 performances.

Both firms are among some 30 companies that are participating in a new program called Operation Early Bird, an advance solicitation of selected

Twin Cities area firms. Charles Johnson, UCF campaign vice-chairman, is heading up the Early Bird effort.

Under Operation Early Bird, company officials and United Fund leaders jointly agree upon a company goal that is substantially higher than the amount pledged to UCF in the previous year.

At Michigan Fruit Cannery, the company and 286 employees at the Benton Harbor and Riverside plants pledged a total of \$6,097. This was 9 per cent over the Early Bird goal of \$5,583 and 72 per cent over the 1968 pledge of \$3,542.

**GIVES \$840**  
Ned Gates Chevrolet and its employees last year contributed \$840 to the United Fund. This year, the company and its 43 workers boosted that to \$1,209, an increase of 43 per cent over 1968 support. The company's goal for this year was \$1,046.

Stephen Rasch, Mrs. Marilyn Miller and Richard Lemire conducted the UCF drive at Michigan Fruit Cannery. Ned Gates was in charge of the UCF campaign at his company.

Jerry McKinney, UCF campaign chairman, said he was greatly encouraged by these early reports but conceded that it is far too soon to evaluate the overall giving climate in the Twin Cities area.

Most companies will conduct their UCF drives within the next few weeks. The campaign officially begins on Monday, with Oct. 14 set as the closing date. The goal to meet the 1970 operating needs of 56 UCF agencies is \$567,468.

McKinney said that the success of the coming drive will be determined largely by the ex-

tent of participation. He has built his entire campaign around an effort to broaden the base of UCF support.

In 1960, when the United Fund raised \$360,000, there were 18,061 givers. Last year, total pledges had soared to \$528,000, but the number of contributors had slipped to 15,652. Throughout the Twin Cities area, there are some 35,000 wage earners.

"We're trying to emphasize to our citizens that everybody benefits when everybody gives," McKinney said. "In the coming month, our 1,200 volunteers will seek to get a United Fund gift—whatever its size may be—from everyone."

As United Fund volunteers (See back page, sec. 1, col. 8)

### New Hours For Library At Galien

**GALIEN** — Mrs. Maurice Roberts has assumed duties as librarian at the Galien township library. She replaces Mrs. Harry Rocks, who now is the librarian at Galien high school.

Mrs. Roberts announced new hours at the township library: 3:30 to 5:30 p.m. on Monday; and Wednesday; 2 to 5:30 p.m. and 7 to 9 p.m. Tuesday and Thursday; and 10 a.m. to noon and 2 to 5 p.m. Saturday. The library closed Friday.

Mrs. Roberts said the library now has 11,852 books, including 775 that were added during the past year. Also available are 142 phonograph records.

### BH Foundry Called To Make Report

**LANSING (AP)** — Industries from five cities will be called in to report on their air pollution abatement efforts before a meeting of the Air Pollution Control Commission in Lansing Tuesday.

The Grand Rapids Gypsum Co. will submit a progress report. The firm has been ordered to establish full control of present pollution by next July.

Making their first appearances and reports to the commission will be the Northern Reduction Co. of Traverse City, the Benton Harbor Malleable Co., Springfield Foundry of Battle Creek and Brown Paper Co. of Kalamazoo.

**TOO BIG TO EAT:** John Chinalski holds while his wife measures a 36-inch banana squash which they raised on their rural Fennville farm. The oversize vegetable weighs 50 pounds. Chinalski said for the first time in 42 years of farming, he has raised squash too large to market. Local stores refused to handle squash which averaged 26 inches because they were too large for average family to eat. (Prosch-Jensen photo).

## Long-Awaited Money Gone In Flash At Courthouse

By BRANDON BROWN Staff Writer

If you think your money disappears in a hurry, take heart.

Nine days ago the Berrien county building authority, operator of the county courthouse in St. Joseph, collected \$850,000 from a new bond sale. Friday it spent \$712,522.67 in less than 15 minutes.

The authority dipped deeply into its bond money to pay back Berrien county supervisors \$334,757.67 the authority has borrowed since 1966 to buy courthouse furnishings; and paid the City of St. Joseph a final \$197,765 installment on about nine acres of land around the three three-year-old court-

house. The money won't actually change hands until next week, however.

What's left from the \$850,000 is earmarked for landscaping county-owned frontage on the St. Joseph river near the courthouse, additional courthouse furnishings, legal fees and others, according to Berrien Probate Judge Ronald Lange, the authority's legal counsel.

The authority is paying back the bond issue from a \$273,000 annual courthouse rental paid by the county board of supervisors.

St. Joseph will pump its third of a million dollars into the city's urban renewal trust fund,

which pays off items like underground utility lines, renewal demolitions and land acquisitions. County government is expected to pump its third of a million into a fund that will pay off a 260-bed annex at Berrien General Hospital, Berrien Center.

The authority's next scheduled meeting is Dec. 12 at 1:30 p.m. in the courthouse.

Otto Grau, Berrien supervisors' administration committee chairman asked the authority Friday to consider loaning the county money to buy more furnishings—desks, files, cabinets and drapes, but no equipment—for the courthouse.

Some authority members were reluctant, siding with Hudson Mitchell's observation that "It's going to be a continuing thing," but they informally agreed to review purchase requests once supervisors have reviewed them first.

The authority's next scheduled meeting is Dec. 12 at 1:30 p.m. in the courthouse.

### Courthouse Has Crisis In Parking

Cars Outnumber Available Spaces

The three-year-old Berrien county courthouse in St. Joseph is facing a parking crisis.

Berrien board of supervisors' County Administration Committee Chairman Otto Grau told the county building authority Friday there are only 254 paved car parking spaces beside the courthouse while county employees alone require 305.

Grau's study didn't include the unimproved county parking lot southeast of the courthouse, but even it is full on busy days.

Grau told the authority that supervisors are considering installing gates operated by plastic cards or tokens at parking lot entrances to cut down on unauthorized parking. Those on county business could exit free. Others might pay \$1.

An alternative is creating a parking lot on St. Joseph river-front property owned by the county near the courthouse, Grau said.

Authority Chairman Allen "Mike" Baker appointed member John Steele to work with Grau and "explore all possibilities" for solving the parking problem.

**FOREIGN STUDENTS HERE:** Two young men from Sweden and Finland have been "adopted" by two Auto Specialty families. M. Dale Meahl is left with Peter Elfving of Malmö, Sweden while Arto Linna of Finland is living with William N. Weybright (right).

## Berrien People 'Adopt' Two Exchange Students

★ ★ ★ Youths Attending Coloma High ★ ★ ★

Two foreign exchange students have been "adopted" by the families of two employees of Auto Specialty Manufacturing company.

From Malmö, Sweden, Peter Elfving has become a member of the Dale Meahl family who reside on Newton avenue, Coloma. Peter is attending Coloma high school as a senior, is 16 years old and is intensely interested in advanced biology. His hobbies include swimming and sailing, and he also plays guitar and sings. He is on Coloma's cross-country team.

Peter's father is a department head of one of Sweden's largest electrical equipment manufacturers, ASEA.

M. Dale Meahl is a secretary in the Ausco Jack division at St. Joseph.

Arto Linna is making his home with the William N. Weybright family who live in Greenwood Park, Hagar township. Arto is from Kemi, Finland, which is about 75 miles from the Arctic circle. He is 16 and is also a senior at Coloma high school.

In addition to Finnish, Arto speaks Swedish, German and English. His academic major is mathematics. Tennis and basketball are his favorite sports. Arto's father is chief engineer for a paper mill construction company. An older

brother is entering his first year of college in Finland.

Weybright is a cost and budget analyst in Auto Specialty's accounting department, St. Joseph.

Arrangements for both young men to come to the United States for a year of study, social activities and travel were made through "Youth for Understanding," headquartered in Ann Arbor. Y.F.U. is a teenage student exchange program designed to foster world peace and international good will through family living experience. Founded in 1951, it has involved more than 20,000 teenagers from 43 different countries.

### Why Many Were Late For Work

Blossomland bridge opened four times yesterday with 775 autos held up but one of the three ships entering and leaving the harbor backed out at the time the traffic was the lightest.

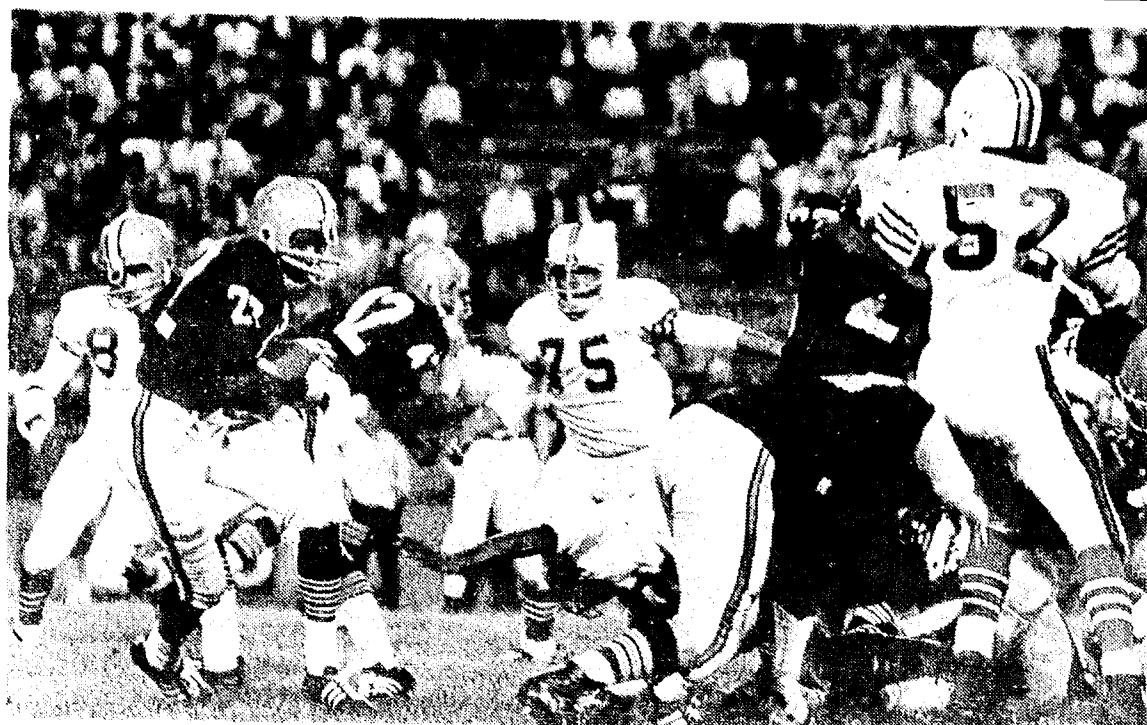

The Peter Reiss finished unloading a load of stone and went through the bridge 7:11-7:24 a.m. halting 200 cars and back through at 7:40-7:49 a.m. halting 325 motorists.

The E. M. Ford went through 8:02-8:17 a.m. halting another 200 autos and went back 8:52-9:05 a.m. stopping another 50 cars.

The Steamer S. T. Crapo unloaded a load of cement at the Huron docks yesterday but backed out sometime during the middle of the night.

ST. JOSEPH, MICH., SATURDAY, SEPTEMBER 13, 1969

ROOM TO RUN: With three teammates ganging up to take Muskegon Heights linebacker (52) out of the play, Benton Harbor halfback Don Hopkins (22) finds plenty of room to run during Friday

night's game at Filstrup Field. Hopkins gained 101 yards in 10 carries and scored one touchdown as Tigers opened the season with 20-0 victory. (Staff photo by Wes Stafford)

## Tigers Too Explosive For Muskegon Heights

By JIM DELAND  
Sports Editor

Explosive is the word for Benton Harbor's football team this fall.

Even a million first-game mistakes couldn't hide that fact Friday night as coach Les Butgereit's Tigers ripped off a 20-0 victory over Muskegon Heights in the season opener at Filstrup Field.

Striking swiftly on the lightning-like running of speed twins Rodney Rhodes and Don Hopkins and the passing of junior quarterback Jim Grannell, the Tigers overcame a host of their own errors to launch the grid campaign on a winning note for the first time in six years.

Rhodes flashed his 9.9 speed on a 51-yard touchdown romp the first time he touched the ball. Hopkins added a second touchdown while picking up more than 100 yards and defensive halfback Willie Drake

wrapped up the scoring with a pass interception in the fourth quarter.

It could have been even worse.

"Those penalties cost us at least three touchdowns," Butgereit admitted. "If we're going to beat Muskegon next week, we've got a lot of work to do."

"But I'll say this—the kids

hung in there and didn't let it get 'em down. This was a big win for us tonight."

The victory actually snapped a seven-game losing streak for the Tigers and marked the first time in three years they scored a point in the opening game.

Rhodes earned the distinction of ending that drought when he got the ball on a reverse late in the first quarter and simply

outran the Heights defenders down the near sideline on a 51-yard sprint that brought the crowd of some 3,000 to their feet.

It took the Tigers almost two full quarters to cross the goal line, again as they repeatedly bogged down in a quagmire of penalties and fumbles.

Benton Harbor was flagged down eight times for 70 yards in the first half alone and had a 38-yard touchdown run by Hopkins wiped out on a clipping infraction in the fourth quarter.

By that time the Tiger tailback already had run the score to 12-0 on a 10-yard burst that capped Benton Harbor's only sustained drive of the game—a 54-yard march following the second-half kickoff.

Grannell picked up 11 yards running and 23 more on a pair of passes during the drive, then flipped a pitchout to Hopkins, who streaked the final 10 yards around left end without being touched.

That was more than the Tigers needed as their defensive unit squashed Heights throughout the contest with a big rush from the front men and three pass interceptions.

Drake turned the final interception into a touchdown when he picked off a pass thrown by ill-fated Heights quarterback Calvin Terrell with less than five minutes left in the game and dashed 31 yards through the

## Kick Hits Upright, Bears Win 7-6

# Lancers Come That Close

By JAKE SHUBINSKI  
Staff Sports Writer

That silly little millimeter may not mean much to the average smoker, but Friday

night at Dickinson Stadium, Lakeshore came that close to earning at least a tie with the St. Joseph Bears.

A stadium record crowd of

4,940 paid football fans saw Greg Rodewald's second quarter conversion kick attempt hit the left upright some five feet above the crossbar and bounce

back toward the playing field.

An inch or more to the right and the ball could have taken a Lakeshore bounce and fallen over the crossbar and left a third-quarter kick or run decision in the lap of St. Joseph coach Ike Muhlenkamp.

So, for the second year in a row, the Bears have a one-point verdict over the Lancers. This one was 7-6 after a 14-13 triumph last year and marks the first time in the nine-year history of the series that the Bears have been held to one touchdown.

The pressure of a win or tie kick for Mark Englehardt was not evident when the St. Joseph PAT specialist put toe to ball and kicked it high and true for the winning point after he scored the tying touchdown in the fourth quarter.

Englehardt scored from the one on an off-tackle slant on the sixth play of the fourth quarter as the Bears drove 69 yards in seven plays.

Two tremendous second efforts by Bill Hamilton, Englehardt's running mate, kept the drive alive. On the third play of the series, Hamilton picked up 15 yards in moving the ball from the 43 to the 28. He was stopped at the line, broke loose for five easy yards, then carried five Lancer tacklers with him for 10 more yards.

After Englehardt gained to the 11, Hamilton again carried tacklers with him and was finally brought down at the

Miller had a clear field to the south goal line and could have scored with ease, but in his jubilation, he tossed the ball to the official and headed for the dressing room.

The heartbreak suffered by Lakeshore fans on Rodewald's PAT kick was nothing compared to the disappointment when Tallas fumbled away an apparent touchdown and a 12-0 lead late in the third quarter.

Tallas broke through the St. Joseph line as usual at the 28, was hit a number of times, but kept his balance until Stan Watts hit him at the two.

The contact knocked the ball out of his grasp and it bounced on the one and on into the end zone where Bob Basselman fell on it for a touchdown.

"He made the contact with his head on the football, right where it was supposed to be," declared a happy Muhlenkamp.

The offensive line play of Bob DeVries, Bill Wolf and Ken Damaske, according to Muhlenkamp, was the key to the St. Joseph drive that produced the tying touchdown.

"These three boys did a fine job of trapping their tackles and making the holes for Englehardt and Hamilton in the second half," said Muhlenkamp.

The St. Joseph coach, who maintained throughout the three-week pre-season practice period that Lakeshore would be one of the toughest opponents faced by the Bears this season, was high in the praise of the Lancers.

"Tallas is a fine back. He's very hard to bring down," Muhlenkamp said. "It's a good thing our trap play worked in the second half because we couldn't get outside against their linebackers."

"Lakeshore is a fine football team," Muhlenkamp concluded.

three to set the stage for a two-yarder and Englehardt's TD run.

While Englehardt with 51 yards and Hamilton with 54 carried the rushing burden for the Bears, Mark Tallas, a 180-pound fullback battering ram, was beating the St. Joseph line to pieces and setting up the Lakeshore touchdown that came with just 26 seconds left in the half.

The Lancers drove 45 yards for the score and Tallas, who finished the night with 101 yards in 17 carries, lugged the ball seven out of the 12 plays it took the Lancers to cover the distance.

Quarterback Jay Craig finally went the final yard on a sneak into the center of the St. Joseph line.

Even the clock went against the Lancers. They were knocking on the goal line door when the game ended. A pass from Craig to Joe Bellavia gave the Lancers a first down at the 15 with 32 seconds left, then Craig gained a yard on the next play.

With no timeouts left, Craig hurried his team back to the line for one final effort. As he took the ball from center, he was hit and the ball bounced into the hands of Ed Miller, St. Joseph's defensive tackle.

## Scalp Mattawan, 53-0

# Redskins Run Wild!

PAW PAW — Paw Paw's Redskins went on a scoring spree unmatched since the 1956 season by beating the Mattawan Wildcats 53-0 in the coaching debut of Chuck Salvano.

The Redskins' previous high was a 69-0 romp over Galesburg in the fourth game of the 1955 season, a year in which Wayne Falan's team scored 276 points

and held their opponents to nine points on the way to an 8-0 record.

Halfback Tim DeHaan led Paw Paw's crunching ground game with four touchdowns and gained 165 yards in 14 carries.

The Redskins gained a total of 623 yards on the ground as they failed to complete a pass in four attempts.

Paul Hamre was a close second to DeHaan with 143 yards in 18 carries. Marvin Nulls got 63 yards in nine attempts. Rick Dingman added 75 yards in 10 carries and quarterback Steve Payne added 50 yards and a touchdown on a roll out pattern for the Redskins' fourth touchdown of the game just before the half ended. His run was helped by key blocks thrown by Tom Underwood and Gary Yarbrough.

DeHaan scored on a 65-yard punt return, two runs of two yards each and a five yard run.

Nulls got Paw Paw's first six points on a two yard run and his team's fifth touchdown early in the third quarter on a 20-yard run.

Quarterback Louie Abent, also on a roll out pattern, went five yards for Paw Paw's

second six-pointer.

Defensively, Dingman was a standout at his middle linebacker slot. He was credited with eight solo tackles and assisted in many others.

The victory was the ninth in a row for the Redskins over Mattawan.

ATHENS — Gobles was held to 62 yards total offense and was penalized 75 yards in a 20-0 loss to Athens here Friday night.

The Tigers gained 61 yards rushing and only one yard passing, despite completing three of 13 attempts. The Tigers were also hurt by six fumbles.

Larry Burgett, Pat Williams and Tom Ames scored for the winners, all on short plunges. Burgett was also outstanding on

Butgereit used 10 men in the backfield during the game and the second unit almost got another touchdown in the waning seconds with Martin bulging his way for 17 yards in two carries before a fumble killed the drive at the Heights 14.

The Tigers open Lake Michigan Athletic Conference action with a bang next Friday when they host pre-season favorite Muskegon at the Filstrup gridiron.

Ed Schmidt, a linebacker, and Marty Sweeney, safety, led Gobles defenders with 11 tackles each.

EMU Co-Captains  
YPSILANTI (AP) — Defensive tackle Bob Lints and split end Gary Matsche have been named co-captains of the 1969 Eastern Michigan University football team. Both are seniors.

GROUNDING: A Lakeshore ball carrier is brought to the ground by St. Joseph's Matt Zerbell as 4,940 fans, the biggest crowd in the history of Dickinson Stadium, watched the Bears beat the Lancers 7-6 Friday night. Lakeshore's Gary Preston (76) tries to move out of the way of the runner and St. Joseph's Bill Hamilton (23) leaps to make the tackle secure. (Redman & Ames photo)

## DUDEK SCORES FOUR TDS

# Lawton Skunks Schoolcraft

LAWTON — Halfback Dave Dudek scored four touchdowns here Friday night as the Lawton Blue Devils ripped the Schoolcraft Eagles 38-0.

Dudek, a 5-8, 160-pound senior, carried the ball 19 times and accounted for 185 yards of the 257 yards rushing gained by the Blue Devils.

Dudek scored two of Lawton's first period touchdowns on runs of two and 15 yards, then tallied on trips of 21 and 22 yards in the middle two

quarters. The first touchdown of the night came on a sneak into the end zone to start the Blue Devils on their way to their ninth win in 10 years over Schoolcraft. One game resulted in a tie.

Tom Moerdyk and Larry Raymond ran for two conversions each.

# Dowagiac Wins, 26-10

DOWAGIAC — The Dowagiac Chiefs won their seventh straight game over Three Rivers here Friday night, 26-10.

Terry Matthews scored twice in the first period, including a 60-yard punt return, to start the Chiefs on their way in the opener for both schools.

Mike Smith and Tom Weinman scored the other touchdowns for Dowagiac. Bob Boles passed to Matthews for the first score and accounted for the only successful Dowagiac extra point on a run.

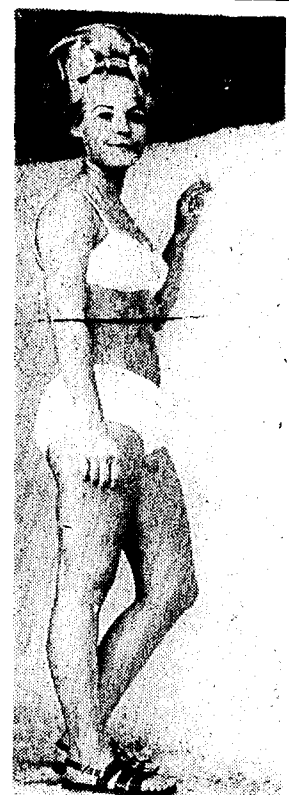

Vince Oye scored the lone Three Rivers touchdown on a sneak into the end zone.

Matthews and Weinman were the top rushers for Dowagiac, while linebacker Tom Underwood and end Jim Deshazo were outstanding on defense.

**COOL WEEKEND:** Brenda Thornton was scheduled to spend weekend encased in blocks of ice as part of grand opening of Upside Down Charley's Mobile Home Sales, 4021 M-139 south, Royalton township. It's the fourth such stunt for Miss Thornton of Oklahoma. Not much ice is needed to cover her. She's a petite 4 feet 10 inches, 100 pounds.

## Six Home Burglaries Net \$852

### Latest In Wave Beginning In July

Money and goods valued at \$852 were reported stolen in six home burglaries—the latest in a wave that began in July.

The burglaries occurred Friday and early today—two in Benton Harbor, two in Benton township, one each in Pipestone township and rural Berrien Springs.

Berrien county sheriff's deputies reported two youths were seen leaving one of the homes just before the break-in was discovered. A car containing two youths was seen at another, they said.

Sheriff's Det. Victor Hauch and Sgt. John Gillespie said \$400 in cash was taken from the home of Mr. and Mrs. Vitis M. Hartsell, M-140 near Naomi road, Pipestone township, 15 miles southeast of Benton Harbor.

The Hartsells said they were returning to the house and saw two youths leaving the backyard about 6:15 p.m. They said the youths stopped and asked them directions to Dowagiac and then left.

**HOME RANSACKED**  
According to the officers, the Hartsells found their home ransacked. The money had been taken from a second floor bedroom, they said. Nothing else was reported missing.

Deputy John Nichols said Mrs. Margaret Koehler, Rocky Wood road, Berrien Springs, reported \$117 in cash missing from her home about an hour later. She said she was away from the house from 6:30 p.m. to about 8 p.m.

In Benton Harbor, Dorothy Golka, 65, of 1026 Lavette street, reported Friday afternoon that her home had been entered and two suits, a revolver and a box of shells, all valued at \$290 were missing. The house had been ransacked, police said.

Webb Griffith, 860 Vineyard avenue, reported later Friday that \$5 had been taken from his daughter's room and a television set moved to the front porch while the family was out.

In Benton township, Alberta Louise, of 265 Hampton road, told officers last night that two purses containing \$42 were taken from her kitchen while she was out of the room. She said she had just arrived home and placed the purses on the table.

Mrs. Burl Story, 1301 Superior street, Benton township, reported that about \$100 was taken by a man she found standing in her bedroom early today. She told township officers that she awoke and thinking an out-of-state son had arrived for a visit, asked "Is that you Norm?"

She said the man turned and walked quietly out of the room. He appeared to be in no hurry, she said. The money was taken from her wallet and her husband's wallet.

MICHAEL S. NOBLE

## New Post For Bendix Executive

**SOUTH BEND**—Michael S. Noble has been appointed manager planning of four automotive operations of the Bendix Automotive and Automation company, according to Harry Stolar, vice president and group executive.

In his new position, Noble will primarily have responsibility for new product planning and coordination of these plans with the marketing objectives of the company.

The headquarters for Noble's planning staff is in South Bend, Ind. The department serves the Brake and Steering Division, South Bend; Hydraulics Division, St. Joseph; Bendix-Eclipse of Canada, Ltd., Windsor, Ont., and Friction Materials Division, Troy, N.Y.

Noble succeeds W. L. Harmon, who has been appointed director of planning for the company's nine automotive operations.

A native of Phoenix, Arizona, Noble is a graduate of the University of Arizona, Tucson, with a bachelor of arts degree. He joined Bendix in April, 1968, as a member of the planning staff and later that year was made a staff assistant.

Bendix Automotive and Automation company is an operating group of The Bendix Corporation, a worldwide manufacturer of electronics, automotive, aviation, space and industrial products.

## Farm Hand Convicted In Killing

**ALLEGAN**—Howard Cruthird, 65, Alton, Ill., was found guilty of a charge of manslaughter following a jury trial Friday in Allegan County Circuit court.

Cruthird was arrested by Allegan county sheriff's deputies on July 9 in connection with the stabbing death of a migrant worker, William Caton, 51, the two men were cabin mates on the Gordon Babbitt farm, seven miles southwest of Farmville.

Cruthird was arrested on an open charge of murder. After deliberating for about six hours, the jury brought back the guilty of manslaughter verdict at about 12:30 a.m. today.

At one point during the jury's deliberation, the jury came out and told Judge Ray they were unable to reach a decision. Judge Ray sent them back and instructed them to try again.

A charge of manslaughter carried a maximum penalty of 15 years in prison.

## SMC Course Offered At Paw Paw

**PAW PAW**—Registration for the college level introductory course in psychology offered by Southwestern Michigan college at Paw Paw high school, can be completed during the first class meeting at 7 p.m. Tuesday.

The three hour credit course lasting 16 weeks is one of the first extension courses provided by the college near Dowagiac. The course, for area residents, will be in room 134 of Paw Paw high school. Dean Wells, Paw Paw community service director, said the course was made possible through the cooperative efforts of the Paw Paw school system.

**EMERGENCY OVER**  
GLENDORA, Miss. (AP)—Some 10,000 northwest Mississippi residents were back home today after an evacuation order by state officials sent them fleeing from gas released by a train derailment.

## LEGALS

**NOTICE OF PAVING**  
Pursuant to a resolution of the City Commission adopted September 8, 1969, NOTICE IS HEREBY GIVEN that the City of St. Joseph proposes to make the following public improvements, viz: to grade, drain, pave

and improve the following street with concrete pavement thirty-one feet wide and seven inches thick:

St. Joseph Drive  
From Thayer Drive  
West 550 feet

**NOTICE IS FURTHER GIVEN** that specifications, plans, diagrams for and detailed estimates of the cost of said improvement have been prepared and filed with the City Clerk and are open to public inspection.

**NOTICE IS FURTHER GIVEN** that the Commission has designated as the district to be assessed for the portion of the expense of said improvement to be paid by special assessment all of the lands, lots and parcels of land fronting and abutting upon said proposed improvement, to-wit:

Com. 363 ft. W. and 68.65 ft. S. of Lot 5, Southern Heights Sub. Sec. 35, Twp. 4S., R. 19W., Th. E. 197 ft. Th. S. 261.4 ft. Th. N. 65 degrees 08' W. 119.5 ft. Th. N. 75 degrees 28' W. 27.17 ft. Th. N. 78 degrees 28' W. 155 ft. Th. N. 253.75 ft. to beg. 35°U23
